CAREER OBJECTIVE

Motivated Electronics and Communication Engineering student with strong foundations in digital electronics, VLSI, and signal processing, aspiring to build a career in software and full-stack development. Passionate about problem-solving, data structures, and developing efficient real-world applications by combining core engineering knowledge with modern software technologies.

EDUCATION

Anurag University, Hyderabad Department of Electronics and Communication Engineering	<i>2023 - 2027 (Expected)</i> CGPA: 8.87/10
Venkanna Junior College, Hyderabad Intermediate (12th Board)	<i>July 2023</i> Percentage: 85.3
The Secunderabad Public School, Hyderabad Central Board of Secondary Education (CBSE 10th Board)	<i>April 2021</i> Percentage: 75

TECHNICAL STRENGTHS

Programming Languages	C, Java, Python, JavaScript
Web Technologies	HTML, CSS, JavaScript, Java Full-Stack
Hardware Description	Verilog HDL
Tools & Software	MATLAB, Vivado, Git, VS Code, MS Office
Databases	MySQL

PROJECTS

Seismic Event Detection Using Wavelet Transform.

Implemented a MATLAB-based signal processing algorithm for seismic activity recognition, enhancing detection accuracy through wavelet decomposition.

Web & Java Full Stack Projects

Developed multiple full-stack web applications using HTML, CSS, JavaScript, Java (Spring Boot), and MySQL, including Student Results System and Fruits Shop application.

Portfolio Website

Designed and developed a personal portfolio website using HTML, CSS, and JavaScript to showcase projects, skills, and contact information with a responsive layout.

Ingredient-Based Recipe Generator

Built a Python-based application that suggests recipes based on user-provided ingredients, applying basic logic, data handling, and conditional processing.

ACHIEVEMENTS AND CERTIFICATIONS

Certificate of Internship Completion as Cloud Computing Intern at Micro Information Technology Services.(11th June ,2025)

Completed multiple IoT, Microcontroller, and C Programming courses from Microchip University (September 2024).

Completed an in-depth HTML5 and CSS3 course on Udemy, culminating in a responsive web design capstone project.

Active member of the Institute of Electrical and Electronics Engineers (IEEE), engaging in professional development and technical seminars.
